

Welcome to 4th Grade!

Dear 4th Grader,

Welcome to 4th grade! This coming school year we will be team teaching. Each teacher will have their own homeroom for ELA and then students will switch between other teachers for math, science, and social studies. We are so happy to have you in our classes and look forward to getting to know you in September.

There are a few things we would like you to think about this summer. The most important math skill you need for next year is to memorize your multiplication, addition, and subtraction facts through 12. Please practice these if you are weak in these areas.
