Total move estimate: \$210,320.00

This estimate is for hourly commercial moving services. We will be renting containers from a third party and placing them on-site within 100 feet from the access door to the school. This hourly estimate will be billed hourly for however long it takes to complete the project. Wallkill Schools will be packing their own boxes and preparing for the move. Your Hometown Mover will move furniture and contents from classrooms to the shipping containers outside. We estimate this project will take 2-4 weeks to complete. Our crews will work roughly 8 hours per day to move the contents into the storage containers. The same rates will apply to move the furniture back into the classrooms with roughly the same timeline.

If you need more clarification or need some adjustments to the timeline, please reach out to jake@yourhometownmover.com
